Arkhaiya Gangrauli, Kanpur, Uttar Pradesh

Objective

Dedicated B.Tech Computer Science student with a strong foundation in software development, Web Development, Deep Learning, AI, and immersive technologies. Proven ability to build intelligent applications and work effectively in collaborative teams. Seeking to leverage technical expertise in a Software Engineering or Data Science role.

Education

Pranveer Singh Institute of Technology (PSIT)

Bachelor of Technology — Percentage: 70%

Kanpur, UP
2023 – Pursuing

P Mahadev I C Rarua Kanpur Dehat

Class 12th Board Examination (Percentage: 77%)

Kanpur, UP
2021

P Mahadev I C Rarua Kanpur Dehat

Class 10th Board Examination (Percentage: 69.83%)

Kanpur, UP
2019

Skills

- Programming Languages: C, Java, Python
- Web Technologies: React.js, Node.js, JavaScript, Express.js, HTML, CSS
- Data Science / ML: CNN, Image Classification, Matplotlib, Numpy, Pandas, Scikit-Learn
- Core Computer Science: Data Structures, Algorithms, Operating Systems, DBMS, CN
- Tools & Platforms: Git, GitHub, VS Code, REST APIs, Postman, Flask, Vercel, Render

Projects

Mango Leaf Disease Detection System (Major Project)

Feb 26 – Present

- Developing automated diagnostic tool using CNN and YOLOv8 to detect mango leaf diseases
- Applied image preprocessing and data augmentation
- Improved accuracy and robustness of disease detection
- Helps farmers reduce crop loss

AI-Based Deepfake Video & Fake News Detection System

Nov 25 – Feb 26

- Developed full-stack AI-powered system to detect Deepfake videos and Fake News articles
- Integrated React frontend with Node.js backend and deployed ML model using Flask API
- Implemented real-time prediction with confidence score visualization
- Designed scalable REST APIs for seamless frontend-backend communication

Goal Tracker

Feb 26 – May 26

- Built a full-stack productivity application with goal tracking, task management, habit streak monitoring, analytics dashboard, and calendar scheduling
- Implemented JWT-based authentication and authorization with secure user management
- Developed RESTful APIs with 15+ endpoints for goals, tasks, habits, and user operations
- Integrated Chart.js for data visualization and deployed the application using Vercel, Render, and MongoDB Atlas

Certifications

- Oracle AI Foundations Certified – Oracle University
- Programming Fundamentals Using Python — Infosys Springboard
- Data Analytics Job Simulation — Deloitte
- Introduction to Generative AI — Google Cloud Skills Boost
